May, 2010

StaR Child Health SUMMIT 2010 "Going for Gold"

International Forum of Standards for Research in
Children

SUMMIT WORKSHOPS

**Interim and sequential
analysis and roles of data
monitoring committees**

Bias in pediatric trials

**Effective recruitment
strategies for pediatric
trials**

**Trials
Methodology/complex
interventions in
randomized trials**

**With the Editors: Trials
registration and reporting
standards - improving the
quality of trials
reporting**

**September 10th-11th, 2010
Vancouver, Canada
SUMMIT PROGRAM**

Plenary 1: Standards Development Hear reports on Core Outcome Measures of Effectiveness Trials, and Reports from the StaR Child Health Standards Development working groups

Plenary 2: Where's the Evidence? From the Trenches Hear from investigators about issues with trial design and conduct; and from individuals with expertise in regulatory evaluation of trials.

Plenary 3: What about me? Involvement of Patients and Families Hear from investigators who are working to involve patients/families in research study design and determination of outcome measures. Also, recent developments around the ethics of (Phase 1-2) trials in children.

Plenary 4: Knowledge Translation & Publishing pediatric Trials Discuss with Editors of leading medical/pediatric journals, topics including trials registration, trials reporting, and what they look for re: quality in pediatric trials.

Plenary 5: Considering Cultures and Communities: Trials in Developing Nations Hear perspectives on the challenges health researchers face in developing nations.
