

27-28 September 2018
St Anne's College, Oxford
UK EQUATOR Centre
Protocol Publication School
From research idea to developed protocol in two days

Unique new two-day workshop for nurses, midwives, and allied health professionals will help you

Win grant funding
Sail through ethics approval
Publish your protocol

- You have an interest or experience in research, and an appreciation of its importance in improving health and social care.
- You have a great research idea and want to develop it for a grant or ethics application or for publication in a journal
- Practical advice and guidance from experienced statisticians, practitioners, and qualitative research methods experts

Course tutors include: Prof Mary Boulton, Dr Catherine Henshall, Prof Lesley Smith, and reporting and scientific writing experts from the Centre for Statistics in Medicine

Further details: caroline.struthers@csm.ox.ac.uk
