About the Library

Reporting guidelines for main study types

Randomised trials	CONSORT	Extensions
Observational studies	STROBE	Extensions
Systematic reviews	PRISMA	Extensions
Case reports	CARE	
Qualitative research	SRQR	COREQ
Diagnostic / prognostic studies	STARD	TRIPOD
Quality improvement studies	SQUIRE	
Economic evaluations	CHEERS	
Animal pre-clinical studies	ARRIVE	
Study protocols	SPIRIT	PRISMA-P

Translations

Some reporting guidelines are also available in languages other than English. Find out more in our [Translations](#) section.

About the Library

For information about Library scope and content, identification of reporting guidelines and inclusion/exclusion criteria please visit [About the Library](#).

Our **LIBRARY** provides an up-to-date collection of guidelines and policy documents related to health research reporting.

These are aimed mainly at authors of research articles, journal editors, peer reviewers and reporting guideline developers.

Fully searchable **DATABASE OF REPORTING GUIDELINES:**

Search for reporting guidelines

Browse for reporting guidelines by selecting one or more of these drop-downs:

Study type and Clinical area and Section of report

Or search with free text

Are you looking for all available guidance for reporting trials or other research designs?

Are you looking for guidelines focusing on reporting clinical aspects of research?

Are you looking for guidance on how to report a particular part of your manuscript?

- Browse by “**Study type**”
- Browse by “**Clinical area**”
- Browse by “**Section of report**”

The EQUATOR Network – background information

EQUATOR's key goal is to improve **reliability and value** of medical research literature

We **support** researchers, editors, peer reviewers and everyone involved in health research and its publication in responsible publication of research by:

- Promoting rigorous research reporting and highlighting problems resulting from inadequate reporting
- Providing free unique online resources
- Providing education and training
- Conducting research and evaluations
- Collaborating internationally to facilitate the improvement of health research reporting on a worldwide scale

We provide everything you need to know to write and publish health-related research:

- Reporting guidelines
- Guidance on scientific writing
- Industry sponsored research guidance
- Editorial organisation guidance
- Research ethics guidance
- Publication ethics
- Good practice guidelines

How to do it? See our toolkits for:

- Librarians
- Authors
- Editor
- Educators

www.equator-network.org

The EQUATOR Network was officially launched in June 2008. Since its launch, the programme has already achieved **important milestones**:

- Developed a free online Library for health research reporting (<http://www.equator-network.org/>) that has been widely accessed by people from all over the world

- In collaboration with the Pan American Health Organisation (PAHO) launched the **Spanish** version of the EQUATOR website and promoting responsible research reporting in **South American and Caribbean regions** (<http://www.espanol.equator-network.org/>)

- Built international recognition and reputation as the **leading authority and resource portal** in the area of health research reporting. Reference to EQUATOR is included in the "Recommendations for the Conduct, Reporting, Editing, and Publication of Scholarly Work in Medical Journals" (formerly Uniform Requirements for Biomedical Manuscripts), the most fundamental guidelines developed by the International Committee of Medical Journal Editors (**ICMJE**) that are followed by most biomedical journals

- Organised numerous workshops, seminars, talks and Annual Lectures on issues relevant to research reporting

- Published a number of research papers and articles promoting good research reporting; published a regular online newsletter and set up a LinkedIn group and social media presence disseminating information about new reporting guidelines and the latest developments

EQUATOR is funded by:

www.espanol.equator-network.org
